Join us for our upcoming **COLOR & COMPLEXION: Get Your Glow On** celebration! **What's Your Color Inspiration?** Every day we're surrounded by inspirations of color every day...52 weeks of every year! And then there's the announcement of the color(s) for the year and new seasonal fashion colors to embrace...*or not*. [Pantone](#) has chosen not one "color of the year" for 2016, but two! "Rose Quartz", a soft rose tone, and "Serenity", a cool tranquil blue, together are the upcoming color of the year. So how will you wear color this year? Do pale, muted colors flatter your personal coloring? If not, how can you stay 'on trend' and still remain true to your own coloring? **Wish you had skin that glows with health & vitality?** See the fundamental basics of a proper facial demonstrated by local esthetician Pam Combs. **Ready to learn how to wear the new season's colors, even if they're not your best?** Watch Color & Style consultant Deloma Sherwood show you how to combine colors in your wardrobe and makeup for a look that flatters YOU!

If attending the afternoon session, you can park on either side of the GO USA Building. For the evening session, please park on the South Spokane Street entrance, as the gated parking lot on the opposite side of building will be closed after 5pm.

We are honored to support the Wellness Center by holding our celebration in their suite and hope you will join us for this fun & informative afternoon or evening session.
